

# Transaction Information

|                     |                 |
|---------------------|-----------------|
| Tool ID             | 33B50A          |
| Tool Status         | Connected       |
| Location            | Burlington, USA |
| Wafer Size          | 300 mm          |
| Fab Section         | Test            |
| Tool Available Date | 2025-03-11      |

# General Product Information

|                   |                                 |
|-------------------|---------------------------------|
| Vendor Supplier   | TEL                             |
| Model             | P12XL                           |
| Vintage           | 2002                            |
| Serial No         | PH03807                         |
| Asset Description | TEL P12XL prober dual load port |
| Software Version  | Rby00-R016.02U1                 |
| CIM               | RS232                           |
| Process           | Test                            |

## Hardware Configuration

| System Type       | Description  | Quantity | Status |
|-------------------|--------------|----------|--------|
| Factory Interface | FOUP         | 2        | OK     |
| Others            |              |          |        |
| Handler System    | pincette     | 2        |        |
| Options System    | LTI unit     | 1        | OK     |
| Main System       | Prober       | 1        | OK     |
| Options System    | CR385PH HTTD | 1        | OK     |
| Options System    | D250 chiller | 1        | OK     |

## Excluded Items List (Pumps, Chillers & Abatement are all excluded)

| Description | Quantity |
|-------------|----------|
|             |          |
